### Somewhere Over The Rainbow

Somewhere over the rainbow way up high  
And the dreams that you dreamed of once in a lullaby  
Oh, somewhere over the rainbow blue birds fly  
And the dreams that you dreamed of  
dreams really do come true, oh  
Someday I'll wish upon a star  
wake up where the clouds are far behind me  
Where trouble melts like lemon drops  
high above the chimney tops,  
that's where you'll find me  
Somewhere over the rainbow blue birds fly  
And the dream that you dare to oh, why, oh, why can't I?  
Well, I see trees of green and red roses too  
I'll watch them bloom for me and you  
And I think to myself what a wonderful world  
Well, I see skies of blue and I see clouds of white  
And the brightness of the day highlights the dark  
And I think to myself what a wonderful world  
Someday I'll wish upon a star  
Wake up where the clouds are far behind me  
Where trouble melts like lemon drops  
High above the chimney tops that's where you'll find me  
Oh, somewhere over the rainbow way up high  
And the dream that you dare to why, oh, why can't I?

### The Ugly Duckling

Once, there was a mother duck. One day, she was excited, because her eggs were finally hatching. The cute little ducklings started walking around. One duckling, however, was different from the others. He was not cute at all, and all of the other ducks thought he was ugly. They didn't want to play with him. This made the ugly duckling sad, so he flew away.

When autumn arrived, the weather got cooler. The ugly duckling wanted to stay warm. He found a small house and walked in. It was very comfortable. A nice woman lived there with her cat and hen. The woman welcomed the little duckling with open arms. However, the cat and the hen thought he was too ugly. They made him leave. The ugly duckling felt lost and didn't have anywhere to go. No one wanted to be his friend. Soon, winter came. It was so cold that the pond turned into ice.

Luckily, a man found the duckling and took him home. The man's wife and children didn't like the duckling, so he ran away.

The duckling was back out in the freezing cold. This was a very sad time for the poor little duckling.

Finally, winter ended. The lonely duckling was happy to see spring. The first thing he wanted to do was swim in the pond.

When he got to the pond, he saw some beautiful swans there. He knew the swans would just make him leave. To his surprise, the swans invited him over. He didn't know why. When he jumped into the water, he saw his reflection(倒影). He was no longer an ugly duckling. He had grown into a beautiful swan!

## What the Old Man Does Is Always Right

An old couple lived in the countryside. The couple had a small horse. One day, the man said, "We no longer need this horse." The old man wanted to bring it to the village and trade it. His wife said, "Good idea!" The man left for the village. While he was walking, he saw a farmer with a cow. The man thought, "That cow can give milk!" He traded his horse for the cow. After that, he saw a woman with a sheep. He thought, "A sheep can give wool." He traded his cow for the sheep. Later, the old man traded his sheep for a goose. Then he traded his goose for a chicken. In his opinion, these trades were very wise.

He got to the village restaurant and decided to have a snack. The owner was throwing out a bag of rotten apples. The man thought, "My wife can use those apples to make a great apple pie." He traded the chicken for the rotten apples!

In the restaurant, the old man saw his friend Noah. He told Noah about his trades. Noah said, "Your wife will be angry." The old man said, "My wife won't be angry!" Noah said, "Impossible!" If your wife isn't mad, I'll give you fifty gold coins!" Then, they went back to the old man's house. The old man told his wife about the trades. His wife said, "My dear, I don't agree with all your decisions, but you tried hard. I support you because I love you." Then she gave her husband a hug. Noah handed the old man fifty coins. He thought, "They know the meaning of love. No matter what, they always support one another."

### Free App Helps Cut Plastic Waste

We only have one planet on which we live, to preserve the planet for our children and future generations, people have paid more and more attention to the environmental protection, and there is a free app that can help cut plastic waste.

You know, the world is getting hotter and hotter every year. And it's important for all of us to stay healthy and drink lots of water. It's getting hotter because of something called "climate change". "Climate" means weather. Climate change may cause many problems. Such as hotter temperatures, more severe storms, increased drought, ocean warming, and not enough food. The weather is changing because of all the pollution people have been making for many, many years. There are many kinds of pollution, such as air pollution, water pollution etcetera, and all of them are very bad. One kind is "plastic waste". If someone buys a bottle of water, drinks it, and throws it in the trash, that plastic is now waste. BUT, if someone uses that bottle again, it's no longer waste! And the plastic won't pollute our planet.

The good news is that it's often not too difficult and expensive. Taiwan has a free mobile app to help you find over 8000 spots to refill your water bottles! What you need is a mobile. See...this is my iphone. Folks in Taiwan used to leave tea pots filled with water outside for thirsty passers-by to drink, so that everyone could be safe in the heat. So, that's why we have this app. In English this means "Tea Service". The app has already saved more than 450,000 plastic bottles!

So one of the smart ways is "Choosing reusable over single-use". With everyone working together, we can all help to stop climate change. Preserve the planet and make a better life.
